Madhu's Students Academy

www.madhustudentsacademy.com

Madhu's Students Academy (MSA) is a coaching institute for the benefit of students from Std. I to X. Madhu's Students Academy imparts quality education to students of ICSE and SSC Boards across all schools of Pune. We pride ourselves in providing education centered around the concept of personal attention for all. We do not take more than 6 to 7 students in a group at a time.

The director of MSA, Mrs. Madhu Daryanani, plays the role of the Head of Academics. She began her career way back in 1983 and is the guiding force giving direction to the organisation. She plays an active role in the academics of each and every student. She provides support to all her teachers and acts as a mentor.

Madhu's Students Academy is responsible for providing outstanding results for its students over 33 years of hard work put in by all the staff and support staff. This would not be possible without the teachers who have been, over the years, the pillars of strength of our organisation. Mr. Akshay Daryanani, Manager and Maths Faculty, teaches Maths to students of Std. VIII - X. He has produced outstanding results for his students and is responsible for increasing the interest levels in his subject.

We teach all the subjects for Std. I to X of the ICSE / SSC boards so that the students do not have to look elsewhere for other subjects. All our teachers are well qualified and on an average, every teacher has an experience of over 10+ years. Our teaching environment is very healthy, competitive and motivational. Quality inputs and excellent results is what we promise, provided the child co operates and the parents work with us hand in hand.

For Admissions, you could contact Mrs. Madhu Daryanani. Admissions will be granted on a first come first serve basis. Madhu's Students Academy reserves the right to grant or reject admission to the applicants based on the rules and policies of our institution.

Std. I to IV. ICSE / SSC Boards.

Viyona Daryanani (Primary In-charge)

Primary school children need a lot of attention and guidance during these base forming years. We, at Madhu's children, strive hard for the development of academic attributes vital for the growth of young students. Along with teaching the children the importance of subjects like mathematics, we teach them traditional methods that have been used and followed by schools over the years.

Some of the Salient features of Madhu's Children are as follows:

- Teacher : Student ratio is 1 : 6
- Daily School Homework according to school calendar is done.
- Conversation in English only, is encouraged.
- Stress is laid on English Language, sentence formation, reading and recitation, spellings and phonetics.
- Improving handwriting is emphasized along with regular study habits.
- Teachers are well qualified and dedicated.
- The staff is well directed by Mrs. Madhu Daryanani, who personally supervises the progress of every child.

Std. V - VII ICSE / SSC Boards.

Students studying at the middle school level need quality inputs to help them understand and perform in their periodic examinations in school. We, at Madhu's Tuitions work in an environment which encourages personal attention to students at all times. We understand the importance of time in creating a meaningful impact on the student's academics.

- Some of the Salient features of Madhu's Tuitions are as follows:
- Maths is taught and practiced daily.
- Hindi & Marathi is taken care of, by an expert teacher.
- All Subjects are done in class.
- Weekly tests are conducted to measure the performance of the students.
- Students are encouraged to express themselves, thereby creating an environment that fosters the all round growth of the child.
- Teachers make studies more meaningful and enjoyable so that the children find their tuition experience fulfilling and something to look forward to.

Std. VIII - X ICSE / SSC Boards.

High School Students need to be constantly motivated and encouraged to achieve better results. We, at Madhu's Classes give personal attention to our students by creating small groups of 6 to 7 students at a time. We teach all subjects under one roof so that the child does not have to look elsewhere for other subjects.

We have separate teachers teaching the following subjects:

- Mathematics
- English Literature
- English Language
- Physics
- Chemistry
- Biology
- Hindi
- Marathi
- History & Civics
- Geography & Economics
- Computers

Admissions are open. You could collect the forms and the fee details from our office. Since we take small groups, admissions will be granted on a first come first serve basis.
